Taxed and Half Tax-Free”***

The Mortgage Bankers Association of America

The Mortgage Bankers Association of America was organized in May, 1914, forty-five firms and companies being represented at the organization meeting. The membership has increased until now it includes about eight times the original number.

The association is a commercial organization. It is not a partnership and it is not incorporated. Its members are not responsible each for the other. The principal purposes of the organization are the collection and distribution of information for the mutual benefit of the membership. In this respect the general office serves as a sort of clearing house for the researches and observations of the members and of the research department.

Realizing that satisfactory service is the first essential of successful business, the association aims to bring the borrower and the lender closer together, and to thus reduce the expenses and risks of the business.

With this purpose in view it is the intention of the officers of the association to admit to membership only firms, companies and individuals of known integrity and reliability. The business practices and the financial standing of all applicants are carefully investigated before admission, and failure to maintain these high standards after admission is cause for immediate resignation or expulsion.

Investors who purchase mortgages from members of this association may be assured that the Board of Governors supported by the sentiment of the membership exercises every practicable influence to maintain the high standard of these securities and to protect the purchasers.

The following quotations from the constitution definitely define the qualifications of members and the regulations respecting their admission:

Purposes

The purposes of the organization are set forth in the preamble to the constitution to be:

(1) encouraging intelligent legislation affecting the business;

(2) acquiring and disseminating correct information regarding the business;

(3) aiding public discrimination between such securities and dealers therein as should command confidence and those who should not;

(4) securing uniformity of practice where uniformity is desirable;

(5) affording opportunity for those engaged in the business to secure the benefits of personal acquaintance and interchange of ideas, both by individual contact and public discussion, and in various other ways.

Qualifications of Members

Art. II. Sec. 1. Constitution: Any national or state bank, trust company, corporation, partnership or individual, in good standing, having a paid-in capital stock and surplus of \$25,000 or more, and which makes a practice of loaning money on the security of improved real estate, and publicly offers

such securities for sale, as a dealer therein, shall be eligible to membership in this Association.

Provided: Any person, partnership or corporation, in good standing, not eligible to membership as above provided, who makes and sells mortgages upon improved real estate, or who buys such mortgages for investment, may become an associate member of this Association; provided, that associate members shall have all the rights and privileges of the Association except the right to vote. Amended Sept. 18, 1918. Amended Sept. 10, 1925.

Provided further: That nothing herein contained shall be construed as making eligible to membership either regular or associate, any person, partnership or corporation which does not sell mortgages as independent units to investors. Amended Sept. 10, 1925.
